

Customs Duty Calculator (De Minimis Threshold Guide)

This Customs Duty Calculator helps ecommerce merchants estimate whether their shipments will incur duties and taxes when shipping internationally. Compare your product value against each destination country's de minimis threshold to determine duty-free eligibility.

How to Use This Calculator

1. Choose the destination country.
2. Check the de minimis threshold listed.
3. Enter your product's total declared value (including shipping).
4. If your declared value is below the threshold, no duties/taxes apply.
5. If it's above, duties and taxes may apply based on local rates.

De Minimis Thresholds by Country (2025)

Country	Threshold Value	Currency
United States	800	USD
Australia	1,000	AUD
Canada	20	CAD
United Kingdom	135	GBP
European Union (most countries)	150	EUR
Japan	10,000	JPY
Singapore	400	SGD
Mexico	50	USD
China	50	CNY
Brazil	50	USD

Disclaimer: De minimis thresholds are subject to change. Always consult the destination country's customs authority or your shipping provider for the most current rates and procedures.
